

# Judging

**Purpose:** The purpose of judging is to evaluate all projects and participants based on the established judging criteria from category knowledgeable and qualified adults. Judges must hold a Bachelor's degree or equivalent and have active knowledge in the field to judge.

**Method:** Each project will be judged by a minimum of two (2) teams and each project will be scored independently by each judge. Be sure to label each scoring sheet with the project number and your name. All scoring sheets must be returned to the Judges Registration table. Scoring will then be tallied by the BSSEF Program Office and winners announced at the Award ceremony. Place winners will be provided to the Best-of-Show Team for judging and selection.

**Team Approach:** Teams are developed to minimize repeat questions to participants and to encourage and promote thoroughness of the review to the judging criteria.

**Groupings:** Grouping will be comprised of at minimum three (3) topic knowledgeable people.
